## Healthcare Transformation Program 18

|            |                          |
|------------|--------------------------|
| Client     | AstraZeneca              |
| Role       | Technical Lead           |
| Duration   | 2025-04-05 - 2026-08-09  |
| Technology | Java, Spring Boot, Azure |

### Key Responsibilities

- Led end-to-end software development lifecycle.
- Designed enterprise-grade system architecture.
- Mentored development teams.
- Collaborated with solution architects.
- Improved system scalability and reliability.
- Led technical design discussions.

## TRAINING

| Course                         | Technology | Provider          | Score |
|--------------------------------|------------|-------------------|-------|
| Modern JavaScript & TypeScript | JavaScript | Coursera          | -     |
| AWS Solutions Architect        | AWS        | AWS Skill Builder | 80.00 |

## EDUCATION

|                |                             |
|----------------|-----------------------------|
| Degree         | Bachelor of Technology      |
| Specialization | Electronics & Communication |

|              |                |
|--------------|----------------|
| University   | VIT University |
| Passing Year | 2019           |

## ACHIEVEMENTS

---

- Developed application modules based on business requirements.
- Fixed production issues and resolved defects.
- Participated in Agile Scrum ceremonies.
- Recognized for technical excellence and problem solving.
- Actively participated in knowledge sharing sessions.
- Successfully delivered enterprise applications within schedule.

## CAREER HIGHLIGHTS

---

- Strong experience in enterprise software development.
- Hands-on expertise in Agile Scrum methodologies.
- Excellent analytical and problem-solving skills.
- Experience working with cross-functional global teams.
- Committed to delivering high-quality scalable solutions.
